I. Facebook

This online application uses the Social Plugins of the social network [facebook.com](https://www.facebook.com), which is maintained by Facebook Inc., 1601 S. California Ave., Palo Alto, CA 94304, USA. ("Facebook"). Plugins are recognized by Facebook logos (white "f" on a blue background or "raised thumb") or are marked as "Facebook Social Plugin".

When you access a web page, your browser will immediately connect directly to Facebook's servers. The content of this Plugin will be transmitted directly from Facebook to your browser, which will link it to the website. N&G Beauty Ltd. cannot influence the amount of data that Facebook collects using these Plugins. Therefore, through the following link we inform you only about what we know <http://www.facebook.com/help/?faq=17512>.

By linking to these Plugins, Facebook receives information that our respective website or platform has been visited. If you are logged in to Facebook, Facebook may attribute this visit to your account. If you interact with these Plugins, e.g. click the "Like" button or write a comment, the relevant information will be immediately transferred from your browser to Facebook and will be saved there. If you are not registered on Facebook, Facebook still has the ability to understand your IP address and save it.

These Facebook Plugins can be attached by site operators to their own websites or platforms. With one click on these Plugins, Facebook registered users can automatically leave a message in their Facebook profile that they like the information from the links of the site operator. The Facebook-connected Plugin "communicates" with Facebook and sends Facebook data when visiting the website - even if the user has not clicked on the Plugins.

Through the so-called iFrame connection, the browser loads in addition to the launched page and an additional smaller "page within the page", which contains the corresponding Plugin. In the case of a Plugin belonging to Facebook, this iFrame link or source text comes entirely from Facebook and cannot be controlled or processed by N&G Beauty Ltd.

If the browser later reconnects to the social network server, the cookie is transferred and can help create an account. For users who register later, a link to the information contained in the cookie is also possible.

If the user is logged in to the current session on Facebook, information about both the page and the cookie is transmitted - it is possible that this information to identify the session will be assigned to the appropriate account.

We do not know the scope of the data and the purposes for which it is collected, as well as how it is used by Facebook. For information about your rights and configuration options to protect your personal data, please contact Facebook Inc. or follow Facebook's privacy policy.

With Add-ons you can block Facebook-Social-Plugins for your browser, using for example "Facebook Blocker".
